| Error messages | <p>Error messages added during:</p> <ul style="list-style-type: none"> • Creation • Voting  |

For corporate customers

Division of voting into
"Secret voting" and
"Open voting"

The type of vote is divided into:

Secret ballot – when participants' votes remain anonymous to the voter.

Open voting – after the votes are counted, the user will see how the participants voted.

The screenshot shows the 'New vote' creation interface. At the top, there are three steps: 1. CREATION (Now), 2. VOTING (Not scheduled), and 3. RESULTS (Not scheduled). The interface includes a sidebar with 'New vote' and 'ARCHIVE' options, and a main form area. The form has several sections: 'TITLE OR MAIN QUESTION' with a text input and a 'Description' field; 'NAME OF THE ORGANIZATION' with a text input; 'BALLOT TYPE' with a checked checkbox 'Choose how voters will vote'; 'VOTERS' with a checkbox 'Determine who will have the right to vote'; 'TYPE' with two radio buttons: 'Secret vote' (selected) and 'Open vote'; 'START' and 'END' dates with 'Select date' buttons; and 'OPTIONS' with two numbered text input fields. A 'Background image' button is located on the right side of the form. At the bottom right, there are 'Add images and descriptions' and 'Add option' links. On the far right, there are 'Copy', 'Delete', 'Preview', and 'Log in and create vote' buttons.
